Application for a Rainwater Tank Rebate

The increased rebate applies to new tanks bought, paid for in full and installed on or after 1 July 2007 and by 30 June 2009. Tanks bought, paid for in full and installed between 20 October 2002 and 30 June 2007 are eligible for the previous rebate of up to \$800. To apply for either rebate you must be an owner of the property where the tank is installed. Your tank should be installed and all plumbing work completed before you apply for the rebate. Sydney Water will only issue one rebate per property.

NSW Health does not advise using rainwater for drinking when there's an alternative source of water available. For more information visit www.health.nsw.gov.au
